***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-8,16-26,38 and 42, drawn to a container.

Group 2, claim(s) 9-15,27-29 and 43, drawn to a cleaning kit.

Group 3, claim(s) 30-36, 39-41 , drawn to a cleaning process.

Group 4, claim(s) 37, drawn to an article.

The inventions listed as Groups 1-3 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The container of claim 1 is required in groups 1-3. Said container is not a contribution to the art because it is already known and accordingly is not a contribution to the art. See DE 2547588.

The requisite unity of invention no longer exists inasmuch as a technical relationship involving one or more of the same or corresponding special technical features does not exist between the subject matter and the above groups of claims.

Regarding group 4, it is an independent invention does not have any corresponding technical features in common with the container of claim 1.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
